Summary

I am an enterprising young fresher intending to secure a challenging position where I can effectively contribute my skills and innovative ideas to gain knowledge. I think in term of results and objectives and I work with decisiveness and confidence. I have a proactive attitude and find positive ways to stimulate and engage with people.

Skills

Effective Communication: ability of engaging with people instantly by communicating and excellent level of fluency on many other languages i.e. Hindi, Gujarati.

Leadership Qualities: expert in calculating the work distribution and time management to work before deadline on any circumstances.

Problem Solving: having a vast knowledge on algorithms, data structures, flowcharts and database technologies helps to solve almost many problems.

Quick Learner: strong grasping power and the high level of curiosity helps me to learn anything i.e. Language, Platform or Technology quickly.

Technical Knowledge: besides the advance software knowledge, I also have worked on hardware technology i.e. Raspberry Pi, Arduino, RFID, etc.
